## Scholastic Awards Set By B of A

Manager Dean L. Sears, of Bank of America's Torrance branch announced yesterday that again this year the statewide bank is offering its Achievement Awards program, under which \$44,900 in cash prizes are awarded annually to outstanding California high school seniors.

He said approximately 560 high schools with more than 125,000 senior students enrolled are expected to participate.

In addition to 372 cash awards ranging from \$25 to \$1000 there will be more than 5000 trophies, certificates and ribbons.

In the program's nine-year history, awards totaling nearly a quarter-million dollars have been made to more than 1000 young persons. Winners may use the money for any purpose, but he said experience has shown that most of them defray college expenses with it.

The program's purpose, he added, is to honor scholastic achievement and citizenship and promise of service to society.

The selection process begins with the high schools themselves in February. School winners then advance to zone competitions in April. Final judging is held and top awards made in May.

Four major fields of study are covered: science and mathematics, fine arts, liberal arts and vocational arts.
